US EPA RECORDS CENTER REGION 5

399050

Dear Mr. Klick:

Thank you for your assistance in obtaining samples from the wetlands at the Carolina site.

As you requested, enclosed is a copy of the Total Analyte List (TAL) and Target Compound List (TCL), which are the routine analyses conducted by the U.S. Environmental Protection Agency ARCS V program.

To request a copy of the analyses when it becomes available, please contact:

Alan Altur
US EPA Region V
77 West Jackson
Chicago, Illinois 60606

As I mentioned, it may take as long as three to six months to complete the analysis. Please contact me to inquire about the status of the analysis.

When submitting your written request, be sure to include the site name (Roadway) and the sampling date (5-18-93). Also, you will want to request copies of the analysis of samples ESE02/METC02 (SS03) and ESE03/METC03 (SS04), the two sediment samples we collected at the wetlands.

Thank you for your cooperation.

Very truly yours,

B&V WASTE SCIENCE AND TECHNOLOGY CORP.
